CULTURE CRINGE SPECIAL VINYL EDITION ZINE

SOCK IT TO ME!!!

"JUKEBOX SERIES"
45 RPM

HEY! ↓

if you are reading this than you are one of the LUCKY goobers out there that got ahold of the first Culture Cringe "JUKEBOX SERIES" split 7"!! Hopefully you didn't spend too much on ebay if this is after the year 2014.....ANYWAYS Let this serve as your souvenir guide to the record. Included are band bios, a jukebox title strip, and the "misprint correction kit"!!! This was put together (like the cover art) with scissors and glue because I don't trust computers with my damn art. Sometimes you gotta be more in control, ya know? So yeah I hand cut all the covers while listening to music or watching my DVD sets of The Monkees TV series. So, if there are little imperfections here and there it's probably because I was laughing so damn hard. But it's all about the music, and the songs here are top-notch. We hope you all ENJOY!!!

LOOK! LOOK! LOOK!

official CULTURE CRINGE VINYL MISPRINT CORRECTION KIT!!!!

One of the great things about vinyl records (especially from the 60s) is that they were riddled with misprints and imperfections. These issues have made some records super collectible to nerdy record doods so we thought we'd give YOU a chance to cash in. Included here is the first ever "vinyl misprint correction kit", in which YOU get to decide the fate of your 7"!!! If you notice, the word "Polanski's" is mis-spelled on the label. Here is the corrected spelling. You can either: 1) let your record remain the way it came from the factory and do nothing, or 2) cut out the word and paste it over the error. Whatcha gonna do? I know some people can't sleep well at night knowing that there are errors in their lives. CHOOSE YOUR OWN ADVENTURE!! If you do choose to correct the misprint, follow these rules:

CUT OUT ALONG DOTTED LINE. ADHERE TO LABEL USING ELMER'S GLUE STICK. ENJOY!!!

"HUNGRY FOR SOULS AND FUNYUNS"

culture cringe was started in 2012 as a means to distribute the awesome low budget slasher film "girls' night out" on VHS. we then started a podcast and started putting out a semi-monthly zine, as well as limited run cassette tapes. we then started putting on shows and interviewing bands on the podcast. we will hopefully continue to release cool stuff as long as we are able, from our bedroom in Tennessee to yours.
